THE OAKS - Unit 5

US\$ 159,900

Several Condos are for sale at The Oaks, this is the best priced condo for sale in the whole development! The furniture in this unit is great. Almost brand new and it really feels like a home. The Oaks offers two bedroom/two bath units with over 980 square feet of total construction area and almost 900 square feet of living area. Each unit has a private covered parking space.

Each condo has 9 feet 4 inch ceilings, with soaring cathedral ceilings and attic storage with third floor units. Third floor units also enjoy a semi-private outdoor patio area, technically a part of the common elements and therefore not artificially expanding the unit's size.
